

Your Time, Your Freedom.

Life's too short. Get the smile you love in less time!

Personalized braces allow you to get the smile you've always wanted with up to 40% shorter treatment time* than standard braces.

We know you have people to see and places to go. LightForce reduces the number of appointments needed during treatment by up to 40% compared to standard braces.

LIGHTFORCE

*According to data published by the *Journal of Clinical Orthodontics*, 2024. Results may vary by clinician or patient.

Why Personalization Matters

Metal Braces

LightForce Braces

- | | |
|--|--|
| ☒ Bulkier and less aesthetic | ☒ 3D printed |
| ☒ One size fits all approach | ☒ Personalized to each patient |
| ☒ Treatment plan not tailored to YOU | ☒ Digitally designed |
| ☒ Typically longer treatment time | ☒ Up to 40% shorter treatment time |
| ☒ More adjustment visits | ☒ Up to 40% fewer appointments* |

UP TO
40%

Shorter treatment time and fewer appointments*

*According to data published by the *Journal of Clinical Orthodontics*, 2024. Results may vary by clinician or patient.

Braces, But Better.

Blend In...

Choose clear elastics for a more aesthetic option.

Stand Out!

Choose your favorite colors and watch them pop against the LightForce braces.

STEP 1: SCAN

To begin treatment, your orthodontist will take a simple digital scan of your smile. Say goodbye to analog treatment options and hello to digital orthodontics!

STEP 2: PLAN

LightForce delivers a digital treatment plan that is completely personalized to your smile needs. Your orthodontist will review, adjust, and approve the plan before beginning treatment.

STEP 3: PRINT

Based on the digital plan crafted by your orthodontist, LightForce 3D-prints each bracket individually just for you.

STEP 4: BEGIN

Time to start your treatment! Get your personalized braces during your bonding appointment.
